

RUST VETO DWO 901

Dewatering Rust Preventive

DESCRIPTION

RUST VETO DWO 901 is water displacement type rust preventive. It can be applied directly to water wet metal surfaces, where they displace water, leaving a protective film. The additive package in RUST VETO DWO 901 offers a stable oily film, which is easily removable with Kerosene or alkaline cleaner. RUST VETO DWO 901 comply to IS:1154 specifications.

APPLICATIONS

RUST VETO DWO 901 made for severe conditions and excellent corrosion protection on valuable machine tools and as a final protective for tools and machined components in factory stores or shops. It's oily film resists handling in most conditions.

RECOMMENDATION FOR USE

RUST VETO DWO 901 is used neat as supplied. Easy to apply by dipping, spraying (airless/air assisted).

TYPICAL PHYSICAL PROPERTIES

Appearance	Clear Brown
Specific Gravity @29.5°C	0.825 typical
Flash Point, °C (COC)	40
Film Thickness, microns	4.0 typical
In-door protection (covered)	9 - 12 months
Out-door protection	3 months

BENEFITS

- o Economic - Rapid and clear separation of displaced water, increase bath life time, reduce sump clean up frequency.
- o Quality - soft oily film with easy removability
- o Quality - Provides long term protection
- o Quality - High performing chemistry which keep your added value safe and reduce re-work risk
